### **Creating a Strategic Plan for the Woodland Township School District**

#### **Mission Statement**

The Woodland Township School District values the uniqueness of individual students and provides a high quality education in our highly supportive community.

#### **Session 3**

#### **Developing Goal Statements and Objectives for the Woodland Township School District.**

On May 2, 2018, twenty-one (21) Woodland Township School District stakeholders represented by administrators, Board of Education members, education staff, parents and community members came together for the third and final strategic planning work session for the Woodland Township School District. The third meeting focused on developing goal statements and objectives for the Goal Areas established during Session 2 for the Woodland Township School District. The Superintendent, Ms. Misty Weiss, welcomed and thanked everyone for their continued participation. Facilitators Jesse Adams and Terri Lewis, from New Jersey School Boards Association (NJSBA), thanked the members who participated in the previous sessions for returning and welcomed new members joining the group.

We recapped the outcomes of Sessions 1 & 2. We then moved to discussing the stakeholders' actions for this evening; developing goal statements and objectives for the Goal Areas established during Session 2 for the Woodland Township School District. Participants were given the opportunity to self-select which Goal Area they wanted to work on. Each Goal Area team was provided summaries of Sessions 1 & 2 outcomes directly related to the Goal Area. Based on the Sessions 1 & 2 outcomes, each Goal Area team was asked to develop a broad Goal Statement and 3-5 Objectives.

## **Woodland Township School District Strategic Planning Meeting #3 Outcomes**

Participants broke out into their Goal Area teams and began brainstorming on their Goal Statement and Objectives. After group discussions, each team presented its Goal Area results to the full group of meeting participants for final consensus.

The information that follows is a summary of the work of the Goal Area teams: Goal Statement & Objectives, followed by the related Goal Area Session 1 & 2 outcomes. If recommended potential strategies/actions were made by the team, they are also included for consideration. As discussed with the meeting participants, all Session 3 outcomes are recorded and posted on the web to share the group work during the course of the strategic planning process.
